

"I Search": Saskatchewan Animal Research/Inquiry Project

This project integrates Science(Habitats), Math(graphing and data management), Social Studies (mapping and ecoregions of Saskatchewan) and Art (visual aids and drawings) into our Language Arts program. The assignment is to research, collect, outline and organize information on one of the Saskatchewan animals.

Inquiry question to answer with research:

How do adaptations allow certain animal species to survive in Saskatchewan?

Pre-planning and Drafting process:

1. CONCEPT MAP :

Select Saskatchewan animal and ask the inquiry question (above)

1. Create a concept map with your inquiry question on the middle and brainstorm what needs to be researched to answer this question

- **Habitat** (describe vegetation or ecoregion like grasslands, tundra, boreal forest and can provide a map of the region or location)
- **Diet and shelter** (food web, niche, food chain)
- **Adaptations**, advantages and special characteristics to help it survive in its habitat
- **Enemies** (predators, humans)
- **Environmental stress** (pollution, overhunting, loss of habitat etc)

2. PRE-WRITING ORGANIZATION: paragraph organizer/Essay Guide

-write the 3 paragraphs topics and the three supporting details for each

-write important vocabulary words in box available

-use linking/ transitional words box as guide and use descriptive adjectives, adverbs, and rich language

-refer to essay guide for introduction, 3 supporting paragraphs and conclusion

-refer to helpful hints page: for a good topic sentence

(ask a question) and strong closing sentence

refer and highlight these for easier reference

Important Vocabulary
Linking/Transitional Words
Topic Sentences
Supporting Details

3. JOT NOTES: (in writing duotang)

Informative Explanatory Writing Organizer

➤ write jot notes in introduction paragraph 1 with details

-use templates to print questions, facts, statements to support answers

-all original hand written notes should be compiled and organized to show the research process

-write down the name of websites, links, books and articles you borrowed information on

- you can write all the resources on the rough draft page
- rough drafts need to show the editing and revisions (paragraphing, spelling, grammar)
- the outline of the essay Though web needs to be included with the pre-writing and rough draft

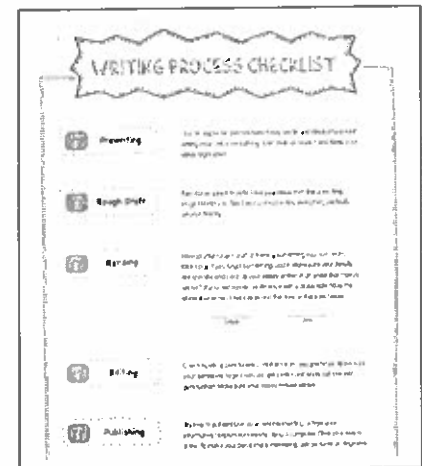

4. Final Written Essay :typed copy on Word document

- has an introduction paragraph introducing the animal ,
- 3-5 paragraphs about animal (diet, food web, shelter could be the topic of one paragraph as an example),
- a concluding paragraph
- each paragraph should have a topic sentence, a minimum of 3 supporting details , and a closing sentence (no copy and paste, has to be jot note information and student written rough draft)
- Bibliography**: outlining resources that were borrowed from
- neatly typed and well organized
- mechanics: correct grammar, paragraphing conventions, spelling, punctuation, capitalization and use of descriptive language/new vocabulary
- this essay organized in paragraph format: some ideas to explore and answer your inquiry question:
- Habits** (examples: migrates, molts, hibernates, etc)
- Interesting Facts**(what makes it distinct and interesting from other animals)
- Population in Saskatchewan** (compare decline of numbers over a period of time)

5. Present: share with your cohorts and class

6. Self Assessment: checklists and rubric

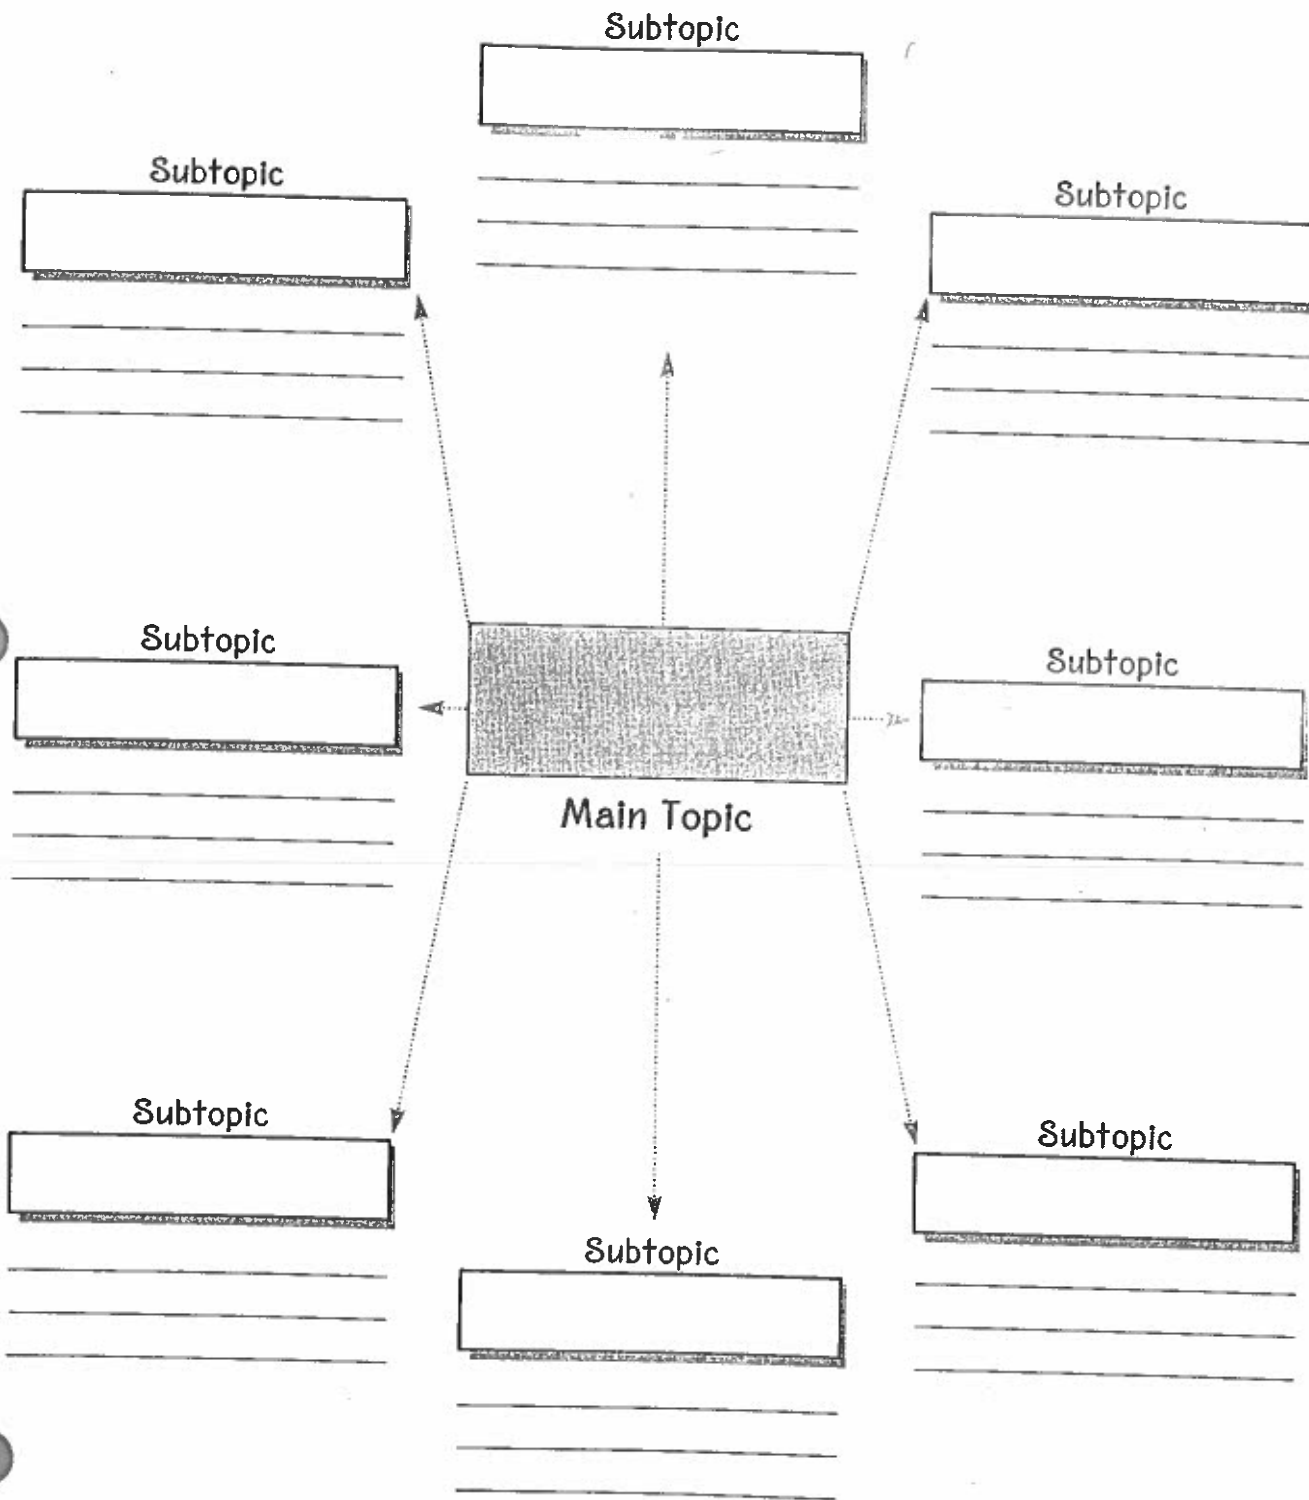

- use paragraph checklists to revise and edit for better Paragraph conventions, meaning, and mechanics
- use writing process checklist to check that you followed all the steps of pre-planning, organizing, researching, documenting sources
- use rubric to mark yourself on the end product (I will mark you as well)
