Lesson Directions

1. Read!

Read the entire selection before completing the rest of the assignment.

2. Summarize.

Write a summary of the selection. Be sure to include a sentence about each chapter or main event. This is your opportunity to show that you read the entire section.

3. Select Vocabulary Words.

Select 5 words that you do not know or don't know well. Write the page of your novel where you found each word. Based on the context clues around the word you picked, try to guess the meaning of that word. Then look up the word and write only the definition which seems to fit the way it is used in the novel. Don't write every definition of the word!

4. Write Questions and Answers.

Think about the important points of the selection. Write 3 questions which allow you to demonstrate your understanding and interpretation of the material. Then answer your questions in complete sentences. (You will be given the "teacher" question in class.)

5. Complete the Graphic Organizer.

Complete the graphic organizer or Thinking Map as discussed in class. Ask for help if you don't understand what to do.

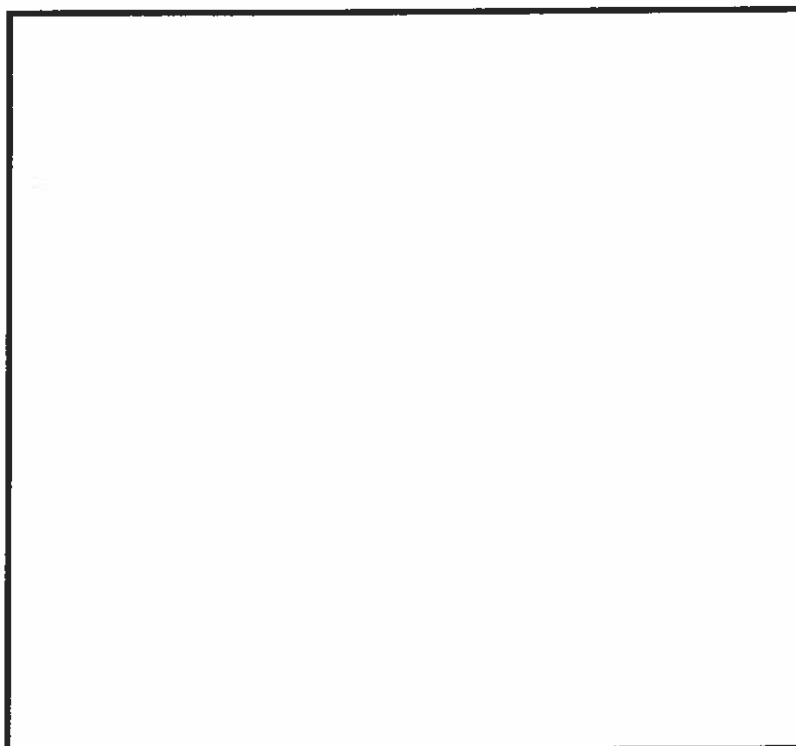

6. Illustrate!

After you have finished the book, illustrate your favorite part.

READ THIS BOOK!

_____, aged _____, thinks you should read this book because :
print your first name

Illustration

Caption

Name _____

Draw the setting (the place where the story took place).

A large rectangular box with a double-line border. In each of the four corners, there are three small stars. The box is intended for drawing the setting. Below the box, there are three trapezoidal shapes representing legs or supports.

Title _____

Author _____

Write two sentences that describe the setting.

A writing area framed by two large pencils, one on the left and one on the right. The pencils are oriented vertically. The writing area contains several horizontal lines for text.
